THANK YOU!!

I just wanted to thank you all for the amazing work you do. My daughter Harper is 2 years old and attends Runnels Preschool. Your team performed a vision screening and identified an abnormality in her vision. We went right to the doctor and found out that not only did she have astigmatism in both eyes but she also has a cataract in the right.

Every day people ask how I knew she needed glasses, and every day I tell them how lucky we are that the Lions Cubsight Program did screenings at her school. Thank you for making a difference in my family's life.
